7th Pediatric Infectious Disease Training Course

Bern, September 1–2, 2023, Inselspital Bern

The local organizing committee is pleased to announce the next PIGS training course: The two-day course highlights essential topics in pediatric infectious diseases. State-of-the-art lectures will bring the audience up to date regarding treatment of important infectious diseases as well as in diagnostics. Topics will cover the broad field of hands-on pediatric infectious diseases. Lastly, interactive case presentations will leave room for vivid discussions.

Selected topics (detailed program will be available in May 23):

- diagnostics and treatment of viral diseases
- medicine in people with migration
- molecular diagnostics
- epidemiology and what the pandemic has taught us
- case discussions with expert panel

The course is addressed to all physicians interested in pediatric infectious diseases.

Time: Friday 01 September, 9.30h – Saturday 02 September, 14.00h

Venue: Inselspital Bern

Language: English

Further information on program and registration will be available in **May 2023**.

For further information see also www.pigs.ch

We look forward to meeting you all in Bern for the 7th PIGS Training Course!
